

# 3 RIVERS COMMUNICATIONS

Dear 3 Rivers Customer:

Thank you for signing up for 3 Rivers Communications' high speed Internet service.

Everything you need to get High Speed Internet service up and running on your computer is contained in this kit. A 3 Rivers Customer Service Representative will contact you by telephone or postcard when provisioning of your High Speed Internet service has been completed. Your new High Speed Internet service will not work until this has happened.

After you have been notified, simply follow the enclosed set up instructions for connecting your router and modem and putting the necessary settings in your computer.

3 Rivers is dedicated to providing you with the most up-to-date technology available, now and in the future. We remain committed to providing this technology with a personal touch. Should you have any questions while going through the self-install process, please don't hesitate to call us.

As a reminder, the Internet modem/router provided to you by 3 Rivers is the property of 3 Rivers. Charges may be incurred if modem/router is not left at premises or returned upon disconnect.

For technical support, please call 1-888-783-7354. A 3 Rivers customer service representative can be reached at 1-800-796-4567.

Thank you.

Your 3 Rivers Internet Team
